

Combination Lock 2800

Product Description

The 2800 mechanical combination lock is a 4 wheel combination lock featuring up to 10,000 unique combinations. With a robust design, range of options and simplicity of use this lock is suitable for a broad range of applications including **lockers** and **office furniture**.

A simple button allows the user to set their own pin code and change it at any time, whilst the innovative code finding function allows emergency access in the event of lost or forgotten codes. The high quality powder coated finish ensures maximum protection and fitting is made easy by the industry footprint.

User and Installation Guides can be found on our **Downloads** page.

Please Note: This lock is not suitable for use in 'Public Mode'.
